The Argument.

THe main scope of the Holy Ghost in this Book of Joshua, is to glorific God by the manifestation of his truth in his
Promises, and his Power and All-suspiciones in performance. For whereas he had promised unto Abraham sour Gen. 1. 7. hundred yeers before, That he would give un: o his posterity the Land of Canaan for a possession, he remaineth sirm and & 13.15. constant in his Word. And though they provided him to wrath by their hainous sins and wilful rebellions, both in E. & 15.18. conjugant in ois your. or at least to cast them off from being his people; yet be rather dispensely with their sins, and exercise the patience Rom. 3.3. and long-suffering, in bearing with their evil manners in the Wilderness, rather then that their unbelief should make the Faith of God of none effect, or cause any of his gracious promises full to the ground unaccomplished. So also is Gods Almighty Power in this Book magnified and glorified, and be mightily declared to be the Lord of Hostes, by giving unto such a poor contemptible People, whose Parents were lately Bond-slaves in the Land of Egypt; so great and gorious Victories over such warlike nations, and such a numerous multitude of puissant enemies. Unto which we may adde the manifossation and glorifying of his Justice, in recting out these cursed Nations, when their fins were encreased to a full measure; But yet withal some mixture of Mercy with this just severity, in saving some of Gon. 15.14 the Hivites from this common destruction, and from being as it were drowned in this general deluge: Mercy, I fay, towards them, in sparing their lives; and towards his own People, in providing for them servants and slaves to do their basest works, that they, in the mean time, as a Royal Nation, might be priviledged and exempted from Such servile drudgery. Another end aimed at in this History, and subordinate to the other, is to describe and set out to the life, a worthy Prince, and a truly valiant and victorious General, both in his person, Parts and properties in the example of Joshua, as a Precedent and Pattern to all such as are of like Calling and Condition, and that whether we respect his Piery towards God his justice and charitie towards men, or his temperance and sobriety towards himself. In respect of God, be is described to be pious and religious, both in his personal holinesse, and in his publick Calling, as he was a general and Chief Commander: For he was a man eruly fearing God, a strict observer of his Commandments, neither declining to the right hand, nor to the left, a worshipper of God in sinceritie and truth; and so reasons and resolved in the true Religion and mayer of godliness, that though he had no other among all the people to joyn with him, yet he projesseth. That he and his boushold would serve the Lord. So in his particular Cal-Josh. 24. 15 ling; he is prepounded as a sit Pattern and Precedins to all of his Rank; For he wholy depended on his chief Severaign, the King of Kings and Lord of Hostes for his direction and protection: He attemptech nothing of any moment till be hath first consulted with God; and then he goeth on with undaunted courage, when he commandeth him, against many and mighty enemies: He trustesh not in the arm of sless, in his own or the peoples policy and power, but only many and mighty enemies: Exercises now in the same you will be so that the couragions; but when he feeming dif- John, 77; pleased, withdraweth his helping hand how is he humbled and dejetted for the loss only of six and thirtie men? Finally, in all his famous victories he arrogateth no part of the praise unto himself, but ascribeth the whole glory unto God as being the principal cause of all his Conquests. In respett also of his carriage towards men, ho is propounded us a fingular pattern of Justice and Charity: For being to divide the conquered Land among the people by Lot, as God a paginar paiserns; insured and country. To come, converte incompared a runn among one people of Luc, as well commanded to despet to be well with all aprightness, shewing therein no favour, partiality or respect of persons, as appeared in his dealing with his own Tribe. For when (presuming, it may be, on his nevents, and to the isola and kindred) they make suit into him for the enlarging of their subsersance, under a fair presence, That their portion is too firait for their numerous Tribe, he refuseth to gratifie them by scanting others, but retoreth their argument upon themselves, namely, That if they were so numer ous, they were the better able to enlarge their borders by their own endeavours, and so putter them upon labour to fit the Mountain for their habitation, by felling down the woods; Johner 14 and upon danger alfo, by fighting with, and driving out the inhabitants of the Valley, though they were a strong people, 15.&c, and had iron Chariots. His Charity and love also appeareth, in seeking the peoples welfare and prosperity with all his endeavors: For whereas the love and favour of God was the chief ground of their present and future happiness, and there was no other means to preserve it unto them, then their cleaving close unto him in his pure worship, and sounning Idolatry, he is not only careful to maintain it in purity and sincerity all his dayes, but when he is stricken in age and ready to dye, it is his chief care to have it continued after his departure; and calling together all the Heads and Elders of the people be useth all his Art and policy to make a firm covenant between God and them. That they would cleave only unto bim, and utterly abolish all Idolatry and false worship. Lastly, He is propounded to all Princes John 246 and great Commanders, at a mirrour of Temperance, Sobriety and Contentation, in that having in his hand, by reason his samous Conquests, so great Power and Authority, that he might have commanded what he list, yet he aspireshnot to any Regal Soveraignty nor to enrich himfelf with a vast estate or large inheritance, but resteth contented with such a proportion as by Gods providence was allotted unto him amongst the rest of his Brethren. The last End at which this Scripture aimeth, is mystically and typically expressed. For fostina is here propounded as a Type of our Lord fesm Christ, the only true Saviour of his Elect People. And to this purpose, that he might more fitly represent this great Savieur of the Church, the Prophet foretold and promised by Moses, his name is changed by him, and wherea he was before called Offica, he was a ferred to made Johns, or locholus, deing the same is coangea of him, and Dou. 18.18 van to Christon and Saviour; Because, as he in a fore was to save his people one of the hand of their earlist one. Num. 13.8 mies by a temporary deliverance and to bring them into the Land of Canaan as their possession and inheritance; so our Jesus presigured by him, was to save all his Elect People out of the hands of all their Spiristual enemies, and to on I fair period or on the heavenly Canaan, of which the eather was but a type: And as this could not be effected by Moles the Law-giver, but was less unto Johna as his proper work, unto which God called and affigued him; solution was to signific unto us, That the Ministry of the Law, with all see legal Ordinances and Persormances, can must bring ut into the heavenly Canaan but is woolly left to be accomplished by our true Joshua and Saviour, as his Josh 6,13 peculiar work unto which he is called and scaled by his Father, who hath vanquished all our spiritual enemies, and will give unto us, at his second appearing, both in our souls and bedies, the full possession and fruition of our holy and happy Inheritance in his heavenly Kingdom unto all Eternity.

Verl. 1. A Nd Jofmathe fon of Nun fent out] See on Char 6.17. But why did Joshua take this course, having had formerly experience of the ill successe which Moses had in the like action? R. There was great defference between this and that fending of Spies , both in respect of the actors, motives, manner and ends of the actions. For hirft, This was done by Joshua slone, and that by speciall instinct of the hirls. This was done by Johna sone, and that by person introduced by Spirit, or at least for prudent ends, That primarily and principally by the indigation of the people. For though it be faid that God communded them to fend the Spirs, Num. 13, 133. Yet is was not cone finply because God approved it , but because the people out of their fear, him in all difficulties and dangers ; and to protect him against all his and diffidence required it, and therefore he gave way to their importunity, when they would no otherwise be fatisfied, but yet afterwards did punish it with ill successe : For Gods first command was that they should presently go up without fear and discouragements and possesse the land, Deut, 1, 21. But when the people demurred upon it, and out of fear and infidelity would not obey it, then the Lord condeficending to their weaknesse, giveth by way of permission a second command, that they should fend twelve ipies to search the land. Secondly, This was done fecretly, no man knowing of it, faving Joshus, and the two S, ies, whom he choic as fit men for this imployment; That openly by publike command, and performed by twelve men of speciali note and punner command, and personned by weige, men of special more and chief valour, but, as the event flewed, ten of them most unfir for tuch a defigne. Whereby is not meant, that those who were already circumcifed should now again be circumcifed; which could not have stord either with religion or natural reason, seeing they could not again take away that foreskin which was already cut off: But this is the fense of these words, Restore the Sacrament of circumcision to its primitive use at the first institution of it to Abraham and his feed, which hath now for a long time been neglected, or at least omitted. It had been much forborn in Ægypt, as some think, till it was again reftored by Moles, either out of neglect of Gods holy Sacrament, or, which is more likely, because there they could not by reason of opperfion administer it according to Gods institution. And in the wilderness it had been wholly laid aside (at least from the return of the spies, which was in the second year after the Ifraelites came out of A. gypt) because at Gods appointment they were suddenly to remove from place to place, as the cloud removed, that was their guide, which they could not do without great hurt and damage to those who were newly circumcifed, v. 8. For though fometime they encamped long in a place, yet all that while they had no affurance of their abode there but were fill at an hours warning to remove. In which case the Lord dispensing with his own ordinance by a new command of their removing, it was in them no negled or in: For had it been for it is not probable but they flould have been flarply reproved for it by God himfelf, and his Ministers, Moses and Aason. But why was Jofhua commanded by God to circumcife all the people at their first entrance into Canaan ? I answer, First, that hereby he might roll away the reproach which they had contracted That increes us times con away use reprosent winter only you to contact on a flagpy, so, Secondly, that hereby they might be prepared to celebrate the Patienver, of which none might eat before they were circumficled. Exol Lag. 8. Thirdly, for the threngthining and confirming of their faith in this affurance, that God would make good unto them his Covenant and all the promifes contained in it, especially this of giving the land of Canaan for an inheritance both to them and their feed, feeing this Sucrament was annexed to the covenant first made with Abraham as a seal to confirm his faith in the full assurance of this particular promise, Gen. 17.8,9,10. In which respect they now needed especially the benefit of this Sacrament , that their faith might be ftrengthened against all difficulties which they were now to meet with, in respect of the miglay oppositions of their numerous, warlike and pozent enemies, and that they might hereby be the better encountered to the state of th raged in all their dangerous attempts and undertakings. And laftly, it was enjoyned by God for the tryal of their faith and obedience when they were under a great tentation. For being now entred into the Land, and invironed round about with many mighty and malicious enemies, who watched upon all opportunities to rulne and destroy them, they could never have had a fitter opportunity then this for the attaining of their purpole, if by any means they might have come to the knowledge of it. For had they come upon them, as Simcon and Levi upon the Shechemites, Gen. 34.25,26. For we have here feven priefts, feven trumpets, faven dayes,feven times compaffing the City, and on the feventh day feven times. And frequently the number of feven is made ule of in the Leviticall Law. So in the Revelation the visions are represented under this number seven seales, seven angels with feven trumpets, feven vials. The resion hereof fome think to be, because God was pleased to begin and finish all things concerning the worlds creation in leven dayes, fix whereof being definated to the finishing of the work it felf in the leverall parts of it, and the seventh to a wholly reft, in which the whole creation was composed into (as it were an integrall frame, supported and sustained by a Divine power and providence, and fanctified to its main ends, to wit, the glory of God, and the good of his ressonable creatures, men and angels. V. 16. Fofina faid unto the people, Shout] This flouting was an act of their faith and confidence in Gods promife, that he would deliver the City into their hands, and accordingly was answered in the effect, And hence It is that this is attributed to faith, Heb. 11. 30. By faith the walls of Fericho fell down after they were compaffed about feven dayer. Though there might be also other use of this their shouting, namely, to encourage one another in the onflaught, and to strike a sudden terror and amazement in the hearts of the Citizens, whereby they were disabled to stand upon their defence. See Judg. 7. 20.

V. 17. And the City fhall be accurfed] f. c. devoted to destruction, and fo confecrated unto God, as the first-fruits of the land of Canasn ; in obedience to whose command it was to be destroyed. See Lev. 27, 28, 29. Numb. 24. 20. Deut. 2. 34. This anathema though pronounced by Jo-flua here, yet was not from himfelf and in his own name and authority, but by Gods appointment, as appeareth 1 King. 16. 34. And probable is, that Joshua received this command of destroying utterly this City, and offering it unto God as an holocauft, in which nothing was to be referred for mans use (in which sense the flaughter of Gods enemics is called a facrifice, lia. 34. 6. Jer 46. 10. Ezek, 39. 17.) though it be not before expressed, but reserved unto this place, to make way for the following flory of Achans fin, by which he transgrelled this command But why was this City above all the rest devoted by Gods appointment to this fearfull destruction ? I answear; Though no other reason could be given, yet it were sufficient that God commanded it, who being absolute Lord of all things in heaven and carth , may do with his own what he pleases; and whatfoever he doth must needs be just, seeing he is juffice it felf, and doth not will a thing because it is just, but a thing is just because he willeth it : Gen. 18. 25. Again, all these cursed nations were abominable in all wickednesse, and by their sins deserved the severest of Gods punishments, and therefore it was at Gods liberty to make choyce of which he pleased to make examples of his wrath. But yet tome other reasons may be given why this City was thus devoted to utter deftruction ; as firft , Because being the first that was attempted God would make it an example to all the reft of his fearfull vengeance, that taking warning by it they might not obstinately stand out against God and his people in a deletrate war 3 or 3 if they did, might be made the more unexcusable. And secondly, God would have the whole spoyl of the City devoted unto him, to make known unto his people, by having as it were these first-fruits offered unto him, thathe had an equall right unto all the rest of the land, and all things contained in it, seeing all was his, and by his power only and affiltance gotten, and not by their own ftrength showfoever in his rich bounty and goodnesse he was pleas-

shem] For the opening of these words we must clear a great question, Whether this act of Johna making peace with the Gibeonites, and of the Princes confirming it by oath, were lawful or unlawful. This question is perplexed with so many difficulties arising from the text compared with other places of Scrapture, that it is not easily to be refolved. For how could this peace be lawful, being expresly contrary to Gods command, which was, that they should make no peace or league with the Canaanites , nor fuffer them to live amongit them, but utterly destroy and root them out, because God had given their land for an inheritance to his people, which they could not injoy if those curied nations were not removed? Or, if it were lawful, why do the people murmur and complain of their Princes for doing of that which was just? and why doth Joshua pronounce the Gibeonites accurfed, if they had done nothing faving that which was equal and right? And why is it faid, that what they did was extorted from them by deceit, implying that they could not lawfully have done what they did, had they not been circumvented by their fraud and diffimulation? On the other fide, if their Covenant and oath were unlawful, why did they not break it, especially being drawn from them by deceir, and feeing allo there was an error in the persons unto whom their oath was made, they not being the same men whom they pretended themselves to be? Neither doth it satisfie and clear the doubt, to fay, that though the thing unto which they fware were unlawful, yet the religion of their eath tyed them to observe it, as being made not only to men but allo to God; seeing this cannot bind a man to do that which is simply unlawful, neither will it please God to call him to witness that we will do that which is finful and exprelly contrary to his revealed will. For the removing of these difficulties, I affirm, and hope to prove, that this Covenant and oath made by Joshua and the Princes unto the Gibconites was in the substance of it lawful, though extorted unto the Gibeonites was in the loubtance of it lawful, though examera, from them by fraud and diffinulation. I. Becaule no condition was expertled in it of preferring their lands, liberties or goods, much left when the properties and idolateous working, but only of their lives; Wherein this peace much differed from that which they might lawfully make with other nations which were far off, For after they had proclaimed was against them; they might offer and make peace with them upon more cafie conditions then with thefe Canaanites ; namely, they might fuffer them to exercise their own superflitions, and not compel them to become profelytes and imbrace their religion; they might alio fuffer them to enjoy their lands, their country, and habitations, their laws and liberties, and to hold with them free trade and commerce . All which conditions were unlawful to be made with thefinhabitants of these cursed countries. II. Because these fevere commands of destroying the Canaanites were not absolute and general, including all and every fingular person without any exception or respect had to any conditions, (for then Rahab, her kindred and family could not have been lawfully spaced and preserved) but to be understood on these conditions; If they still continued in enmity with Go is people, and would not fue and feck for peace; If they would not give place unto them, nor tuffer them to injoy their inheritance which God had given them; If they would not leave their idolatry, and imbrace Go.'s true religion, but receining their superfittions in-danger the Ifraelites to be corrupted by their allurements and evil examples; and finally, If they would enjoy their liberties, and live as free-men in the land, and not submit themselves, their land, laws, liberties, goods, Hyes, and all they had, to live as fervants under the dominion of the Ifraelites , then they were forbidden to make any peace with them, and they were to deftroy and root them out , But contrary wife, if they would accept of their lives and peace by submitting to those conditions, and carefully observing them, then they might have what they defired and fued for. III. Those commands of destroying these nations were but positive laws, which were alwayes to be tempred and qualified with a moral equity, namely, that netwith-flanding therigor of them, those should be spared and preserved who did forfake their evil wayes, and turn unto God by unfained repentance dld broiket chief vit wayes, and turn unto Goo by untrained repensance of and new obedience. For flould not the Judge of heaven and earth execute rightness yadgement? Will he delively the rightness with the wicked, those who repens with those that live in their fin, Gen. 18, deceits, though they did this being suprized with fear of being deceits, though they did this being suprized with fear of being deceits, though they did this being suprized with fear of being deceits, though they did this being suprized with fear of being deceits. 25? pent of the evil that I thought to do unto them, &c. This we fee experimentally verified in the example of the Ninevites, who upon their repentance were freed from that destruction which God had denounced against them by the ministry of Jonah, and of Rahab and her family 28.30. Num.3.2.31. 1 Sam. 30. 78. 8. Which doth not prove that it against mem by the aniuntry of Jonan, and of Rahab and her family they have conditions, but it would have given answer, that they in this flory. V. It is its ide, thu, 11.1.33. 1.03 Laguage the Hivines the index conditions, but it only forkers to waste by those of neglect of their distributions of the histories of the state of them, to let them live ; and the Princes of the Congregation fware lante plainly implyed, that it they had not continued in their enmity, but according to the practife of the Gibconices had defired and fued for peace, and upon the like conditions, the Maclites might lawfully have granted it unto them. VI. Laftly, that their covenant and oath in making and confirming this peace with them was lawful in it felf, and approved by God, hereby appeareth, in that God was so highly displensed with the breach and violation of it by Saul many years atter, that though it were coloured by a flicw of zeal to Gods people, yee his wrath could be no otherwise appealed, when he had continued a fearful famine upon the whole land for the space of three years, then by hanging up fever, of his Sons, and to rooting out almost his whole posterity. Now these reasons being premised and duly considered, the objections may without any great difficulty be answered. For first, if it be objected that this league was unlawful, because God had de-voted all these cursed nations to a universal destruction, and had exprefly forbidden his people to make any league with them; to this I answer, That this is not to be understood of all and every fingular man, but of all who would not submit themselves to observe the former conditions; But if then it be further demanded why this command was general for the deftroying of all, without any mention of these conditions, upon the observance whereof some might be exempted and spared? to this I answer, Because it was generally and for the most part to be executed, and only some few to be exempted ; for God purpoling to give up this curfed people to the hardneffe of their own hearts, he knew there were but a few that would vaild to these conditions : And moreover, because he knew that his people either through cowardife and fear, or for floth and love of este, when they had gotten room enough for their own habitations, would much incline to fit ftill, and not profecute the war against Gods and their enemies, therefore by thefo general commands he ftirreth them up with zeal and courage to fight his battels and execute his defignes. If it be yet further objected, that the Ifraclices themselves did thus understand Gods commands, as though he would have none to be spared, and therefore murmured against their Princes for making this league and paring their lives; to this I answer, That God might well luffer them to remain ignorant in this point, that they might more readily execute his judgments upon thefe curfed nations; and it was an cathe matter to continue in this error, if God was not pleased to inlighten their minds, and discover it unto them. And well might this prople fail for want of knowledg in the non-age of the Church, when as the Prophet Jonah himfelf either for want of knowledg, or at least due confideration, did think that Nineveh must needs be destroyed; because God had threatned it; although he might at another time have some conceit that God would spare it upon repentance, because he was a gracious God, merciful, flow to anger, and ready to forgive. Other objections there are which arise out of the following words in the Text, which I shall answer in their due place.

V. 18, Joshua made war a long time] q. d. Though the warlike exeditions are so briefly related, that they might feem all to have been transacted in a short space, yet in truth this war continued a long time, the space of neer seven years, as appeareth by the computation of Calcbs age. For he was fortry years old when he was sent by Moses to the land, there remain feren and fourty years. But why did the Lord in which they wandred in the wilderness after this return from they have been and five pass old in which they wandred in the wilderness after this return from theying the land, there remain feren and fourty years. But why did the Lord exercise his people in so long and redious a war, which, if he had so pleased, might have been both begun and finished in a few moneths? I answer, Though no other reason could be alledged but his own good pleasure, it were sufficient, seeing he is infinite in wisdom, and knowremainer in treat numerons, acting nexts minute in windoms and know-th what is bells, and infinite in goodneffe, and will do that which it belt for his own glory and good of his Church and people. Bur yet di-vers reasons may be rendred why he was pleased to have this war thus prolonged. I. Because in his administrations and dispensations heufually proceedeth in an ordinary way, according to the nature of fecondary caules, and not by his absolute power in a miraculous manner! And so these populous and warlike nations dwelling in strong and sen-ced Ciries, could not be conquered but in some processe of time suitable to the greatnesse of the work. II. That hereby he might execuse the faith and patience of his people, waiting and depending upon his pow-er and promiles, even when the performance of them was thus delayed 111. To erain them up in obedience to all his commands, when they had continual need of his affiftance, and daily experience of his justice in punishing fin, and of his leve and goodnesse in supporting and pre-ferving those that fear and serve him. 1V, That by this long exercife of arms he might make his people a warlike nation, and not only vali-

But how is it probable that he thought the Hraclites should still serve those falle gods, of whom he had before given this testimony, that they had cleaved unto the Lord tothat very day, chap, 23.8. and of whom it is faid, v. 31. that they fetved the Lord all the daies of Jolhus, and who were to zealous of Gods pure worthip that they were ready to commence a war against their brethren for a bare appearance of inperflicion and will-worthip? To this I aniwer, that he did not direct this speech, or rather this passage of it, to the whole body of the people, much leffe to the elders and magiffraces, who at this time would with all feverity have punished such groffe idolatry, but he speaketh it for the fake of some particular perions amongst them, who were guilty of this fin : And intending to make a covenant between God and them, which should not only respect the time present, but the suture alfo, and knowing how prone they would be to idolatry, if left to their own liberty; who still hanckered after it now they were restrained, and when they durft not openly for fear of punithment, yet acted in fe-cret thele works of darkneffe, as they in the wilderneffe, Amos 5.25, 26, Act.7.42,43. and as they did after Jothua's death, which he now feared ; intending therefore, I say, to restrain them by covenant from falling into idolatry, as a preparation thereunto, he perswadeth some to cast away their idols, and all of them to a firm resolution never again to fall into this fin.

V. 15. And if it from cuit unto you to forve the Lord, choose you this day whom you will ferve] He doth not in thus speaking leave them to their choice whether they would ferve God or idols ; for being the fupream thagiftrate, he was bound by the law to advance Gods pure worthip, and punish idolatry ; but comparing that which is best with that which is worft, the service of God with the service of devils, as it were light with darknelle, life with death, hell with heaven; he leaveth them to their choice, because no man in his right wits could make any doubt which to choofe. And this he doth, not to blunt their zeal by any demur, but to fet an edge on their appetite, and to quicken and halten their choice, and that they might choose more freely, and delighting in their choice, be more firm and constant in their covenant. For it much strengtheneth the bond, when a man binds himself freely and willingly, and makes him much the more unexculable if he do not observe it, Noomi dealt with her daughter in law, Ruth 1.8,15. and Elijah with the Irraelites, 1 King 18. 21. If the Lord be God, faith he, as ye fec it apparent by this miracle wrought in his name, follow him : But if Baal, who can neither hear nor all any thing at their tuit that call upon him, then follow him. So Joshua here propoundeth it to their choice, whether they would follow the superstition of their idolatrous ancestors, or worthip the falle gods of the Amorites who had not been able to deliver their people out of their hand, or, with him and his family, serve Jehovah the only true God, who had according to his promise destroyed the Canaanites before them, and given them their land for an inheri-

The ARGUMENT.

THIS Scripture is entituled The Book of Ju D G E s, because it containers an History of many memorable things A done under the Government of the Indges, and Beweith the flate of the people of Ifrael both in Church and Common Wealth during their times, for three hundred years faving one, from Joshuato Eli. Which summe is made up of these parcels: Othniel governed fourty years, chap. 3.11. Elud, eighty, chap. 3.30. Deborah, fourty, chap. 5.31. Gideon fourty, chip. 8.28. Abimilech, three, chap. 9.42. In all, two kundred ninety and nine years. Within which pace we are to comprehend the years twenty, (map. 10:31. In air, two bounds and in this Book. See on chap. 3.11. Which years, if several indeed from the college, would make this Book a flory of four hundred and ten years, which having the fourty years of Elistobe of the Judges, would make this Book a flory of four hundred and fifty Judicature, I Sam.4.18. added to them, would just make up the summe Paul speaketh of, four hundred and fifty planeature , wam, a so, name to the fix Oppressions miss be made torun in amongst the times of the fix Oppressions miss be made torun in amongst the times of the twiting Indges, and some other supputation would be sound out for the Apostes account; otherwise, by unhandsome awayding the inconvenience of that place we should meet nich as great, if not greater, I King 6.1. There be, that make quirk work, and think to falve up the matter, and folve the doubt, by bl. ming the Scribe that Copied out the Book of the Alli, and fay he million, and more respectively for Transaction, four hundred, for three hundred: But this feemeth more and in the month of the first the account not of the an unitying the knot. Others understand that account not of the times of the high then good speed, and rather a cutting then an unitying the knot. Others understand that account not of the times of the nige toen good pecu, and the times before, from the Birth of Ilaac to the Conquest of Canaan. Some recken from the beginning of Judger, but of the times before, from the beginning of Thates, out of notioner office, from the state of families of the state our purpose, Concerning the Judges mintioned in this Book, we are to take notice, that they were not ordinary Migifrates, but extraordinarily called by Ged tionea in time 1000g, we are with all things feemed deployable and desperate, and endowed with heroick gifts of the Spirit in times of great extremity, when all things seemed deployable and desperate, and endowed with heroick gifts of the Spirit fixing them for those services in which he was pleased to imploy them, Wich was usually to fight his battels, andly vanquishing their enemies, to give his people deliverance from their grievous oppressions; as also to restore and relishe vanquipung vant enemies, the Government, when through the peoples infolencies and unrulinesse all things were brought to disorder and confusion, Neither had thefe Judget Supreme and Regal power committed unto them (for all the While God Was their King, and kept the jura regalia or Royall rights in his own hand, unto whom as supreme they were to appeal in cases of greatest disficulty, Exod 18. 15,19. till in Samuelt time they rigited him and his Government, 1 Sam. 8. 7. and would have a King of their own to rign over them, like other Nations) but they were only Gods Lieutenants, to go out and in before the people at his command, to execute his defigues, and at his appointment (when their work was done) to lay down their Authority and Rale, as we fee in Gideous example, chap \$3.23. Now thefe were called Judges, because they were Gods Ministers appointed by him to execute his righteous judgements, both in subduing, punishing and defirejing the wicked enemies of his Church, and when his people were delivered from syranny and oppressions, to administer justice unto them according to bis Laws, and preferve unto them Gods true Religion in purity and fincerity, without any tainture of lab letry and Superfision. The main scope of this History is to set forth, and seave to the use of all posserity, the state and condition of the Church and Common-wealth of Israel from their sirst setting in Canaan to the time of Eli; That all conditions of the Church and Common-wealth of Israel from their sirst setting in Canaan to the time of Eli; That all fucceeding Ages might learn by their example to imitate such things in them as are worthy imitation, and from the conray. For it discovered their prosperous successes in all their enterprises, whilest they prosessed and maintained Gods true Religion, and valiantly executed his commands in fighting his battels and driving out their enemies; But whenout

of flath and love of ease, or comardly fear, they negletled Gods charge, and suffered them to live among st them, the Lord, as he had threatned, Exod. 23. 33. Joh. 25.13. Num. 33. 55. caused them to become snares and traps unto them, scourges to their sides, and thorns in their eyes, to vex and grive them, as plainly appeareth by this History : For by conversing with these cursed Nations, they learned their works, Pfal. 106.35. They took their daughters to be their wives, and gave their daughters to their fons, and worshipped their gods, Baalim and Ashteroth, chap. 3.6 and 2. 13. and ferved their Idols, which were a snare untothem; yea, they lacrificed their sons and daughters unto devils, Platm 106.36, 37. By which fearful apostacy they shewed their horrible ingratitude unto God, who by such mighty wonders had delivered them out of the Egyptian bondage, subdued their many and mighty enemies, and performed all bis gracious promises in bringing them into, and giving them possession of that good land of Canaan, which flowed with Milk and Honey; and also their shameful persidious nesse in breaking their solemn Covenant with God, into which sossua a little before his death had caused them to enter. By all which provocations they fearfully kindled Gods just wrath against them. as the Story heweth; fo that he made them unsuccesseful in all their enterprises, delivering them into the hands of spoilers that spoiled them, and sold them into the hands of their enemies round about, so that they could no longer fland before them, chap 2.14,15 but being subdued, were grievously oppressed by them. Tet in all this just severity the Lord was fill mindeful of his Covenant, and did not neterly reject them, as their sins deserved, but in his great mercy and goodness did thus sharply correct them to bring them to repentance. Which was no sooner performed, but presently he raifed up Judges to deliver them out of the hands of their oppressing enemies. And though they often relapsed into their Idolatrous and finful courses, and were as often severely punished yet returning anto God, who smote them, by serious repentance; treat any unit of the gracicus and merciful in pardoning their fins, and fending them deliverance. Laftly, by that herrible corruption of Religion and manners which was at this time in the Common wealth of Iran, specially inflanced in that bloody massacre of Gideons sons, and the Sodomitical filthines of the men of Gibeah countenanced and maintained by the whole Tribe of Benjamin, is declared unto all posterity the miserable condition of such a State and people as live in an Anarchy, or (which is almost as bad) under the Government of wicked Magistrates, who either out of fear dare not ercute Tuffice upon offenders, being over-awed with the infolencies of a stiff-necked and rebellions people, or out of favour will not because they tike their courses, as being suitable to their own dispositions; Or through negligence, or love of their own ease, will not trouble themselves to examine and take notice of any wichednesse, that it may be punished, but, as if there were no King in Ifrael, suffer every one to do that which feemeth good in his own eyes.

This cruely he exerci-fed upon them, no, as found think, that being made unferviceable for the warres they might now again ities and rebell againful him? For this there might be founc colour, it he had for them at liberty to live in their own Countries; but none at all, seeing they were kept still under his power to kill them at his own pleasure. He thus used them rather elther out of an innate and more then barbarous cruelty, sporting himselfe in the calamities and mileries of others; or out of pride and vain glory, using them as trophies of his victories; or by such examples to terrifie all other Kings from making any refistance when he invaded their domiall other Kingstiom making any reminance when havacut care in nions. The like examples we find recorded in our latter flories: as of Sapores King of Perfia, who having taken Valerian the Emperour pri-foner, uted him as his foorfood or firrrop to mount up on horfeback; and of Tamberlaine the Seythian King, who having taken Bajazeth in battel, carried him about in an iron cage as a trophy of his victory, and used other Kings to draw his Charior.

For Joshua and his Army had fought against it, and taken it, as some gather from Josh. 10. 42. & 15. 63 that is, the Southerne part of the City, called Jebus but not the Northern, called Salem, John. 15.8. 63. & 18.11.28. and here ver. 21. And indeed Prophets in the Scriptures fomtimes are called angels, Hig. 1. 13, and fo are likewife Gods Priefts and Ministers, Mal. 2: 7. 1 Cor. 13. 10. But for my own part, I do not approve of either of these opinions, but tather think he was the Angel of the Covenant, even the Lord Iesus Christ, I. Because he spake not, as an Angel, or a Prophet, in the Courth, 1. Because netpage not, as an engage, on a propose, in the name of the Lord, but in the person of the Lord himselfe, appropriating the works of the Lord, as done by him, namely the peoples deliverance from Egypt, and bringing them into Cansan, and fo keeping his coand a style, and bringing them into Cansan, and to keeping his co-wants with them. And this appeareth, because the fins for which the Angel reproved them, were fuch as they had committed in Joshua's time, namely, leagues and familiar friendship with the curied nations and not de-molishing their alears as God had commanded, though their good Generall Joshua ha i errneit ly perswaded them unto it, and used all the indearall Johns ha Je ernethly perforded them unto it, and used all the indexend-ours, barked with the authority of his place; to fee it adjut executed But not such as they fell into immediately after the duach for him and the Elders, namely aposslay and isloauty, which the Angel Guely would have reproved them for, had they now been guilty, as they were prefen-ylar screwards in the time of the judgess. Secondly, because Gilgal Is-bree mentioned, where he first appeared to Johns, John, 2 12, and which was formerly the place of their shanding comp, from which is fee-menth hery were now yet all come away, although the land was now dip-ided by the effective face and the state of the state ded by log feeing after this meeting they were every man to blis tokerimeter, v. Shall surely be the Lords, and I will offer it for a burnt-offering] Or thus; or I will offer it for a burnt offering, This wow feemeth to confift of two branches; the first generall, That he would conferrate and devote it to the Lord howloever , the fecond more special , intimating the nature of the subject and the manner of devoting it namely , That if is were fit for faccifice, as clean beafts, and the curtle-dove, and young pigeon, then he would offer it up for a burnt-off ring. Or if his intention was to limit his vow to a humane creature, as is imposed, then his meaning was that it should be devoted an i consecrated to the Lord, but nessing was transit mound by derived and contestants to the Lotty out quot in the way of a burnt-offering; which was abominable to God, but let spart; and lequestred from the world, in a speciall manner to perform unto him more ipecial and religious fervice. For if he meant by these words, shall furely be the Lords, that it should be tacrificed for a burntoffering, then are the branches of this you both one and the lame, and no difference between them. But take this yow in what lenge we will, we must needs confesse, as it is here propounded, that it is very confused and perplexed, rash and unconsiderate. For howspever it was most likely that an humane creature should come out first to meet him, yet it was possible that a dog or some other unclean creature might have done to and to have offered such in facrifice, or otherwise devoted it unto Gods fervice, would have been abominable. Concerning the performance of this vow hash rifen a grand question amongst the learned, Whether John bow soul rises a grand quetton amongst the learned. Whether Aphtheh offered his dushker for a source-offering, or onely confecrated, here to the fervice of God in a flate of virginity. And furely the parties are every flong on both fides, both in their parts and proofs. Of the for-mer opinion we have Joighnis, most of the ancient Rabbins, the best of the Latine fathers, as Ambrofe, Augustine, &c, with divers learned and godly men amongst our late writers: Of the later we have divers and gody men amongh our late writers: Of the later ne have directs of the later Rabbins, and many indicious divines above exception. It were therefore well worthy our pains, it therethy we could add fome light to the deciding of this interient and difficult quieffition. To which, purpose i, will a little more largely infill upon it, than will well fland with our increded brevity. And then the sence of the yow will be no more but this, If it be fuch a thing as may lawfully be effered, then I will offer it for a burnt-offering; or if not, it shall howsoever be consecrated unto God. But by the law not onely humane facrifices were forbidden, as abominable, but all things that were unclean, Leve 27. 11. 12, 13. Deut, 12: 37. liat. 65. 3, IV. It was not in Ichichaha power to have offered up his daughter as a burnt-offering, unlefte he could have involved others also in the fame wickednesse: He could not have offered her up himfelf., feeing it belonged only to the Priefts to offer facrifices : and what probability is there, he could perswade the Priefls to joyn with him in such an horrid action? Again, what legal power had he to kill an innocent, and take away the life of leget jouer und ne to suit an sunocent, som user entry ou me on his dere doughet wishout any offence by her committed against God, or man? Or chough it stoud (which indeed ought one) bei uppyfied be might do it, having a right to diffore of his daughter as this pleasure, yet how could be have offered mother, if a nother had come out to meet him; over whom he had no fuch colour of right, as his wife, or the wife of one in hie familie? Or doing it, how could he be excused of wilful murder? But it is objected, that if we should understand his vow to be a devoting of objected, that it we incure uncertaint his you to be a devoting or his daughter to Gods fervice in a frate of perpetuall virginity, it would much countenance Monasticall yours of fingle life, for which we find no warrant in Scripture before or after the dayes of of Jephthah, yea, the clean contrary in Samuel, who though devoted to Gods service yet had wife and children. And this I conceive the chief reason that hath induced godly learned men to think Jephthahs yow should rather be understood of a burnt-offering than of devoting his daughter to perpetual virginity. But why may they not as well fear, that if we take it in their fenfe, it night be abused to countenance humane factifices, which were far more frequent then the other? For in truth there is no berground from hence to countenance this rather than that. For ces ground from monet to councenance must make mak. For feeting there is in Scipture neither precept nor precedent for this Monshital you of virginly; this example of Jephaha can be but a poor (andy foundation to build it upon; who lived in times of inperfittion and ignorance; and was himself infected disrevaids. forty years] These forty years must not be so computed as to make an interregnum of that space between Abdon and Samson ; for that would not stand with the chronologie 1 Kings 6. 1. See the Preface to this book, & on ch. 3. 11. Neither can they be all meant of Samions time, who judged Ifrael only twenty yeares, ch. 15. 20. But one twenty of them being allowed to Samfon, the other twenty must be taken out of the times of other Judges. And some will have them taken from the years of the precedent judges and to the account reacheth upward to the fifth year of 16zan. Others, more probably, make them run down into the times of Eli & Samuel; For which they have these reasons: I. The o ver-numbers in this book are still reckoned to the following Judges, who delivered the people from their troubles and oppressions. II. It must needs be that the Ifraelites fin, for which they were delivered into the hands of the Philiftines forty years, was after the daies of Abdon , feeing it is fo the Phintines forty years, was after the date of Abdon, the children of Arael did evil a-plainly faid, after the death of Abdon, the children of Arael did evil a-gain. III. Under these three last Judges it seemeth the people fell nor into idolarry or troubles but lived in peace, and were not delivered into the hands of their enemies; Whence it is that there is no mention made of any war in their times, nor of their victories, or deliverances of the of any war in tour times, nor or their victories, or denverances of the people. Though they had their full inheritance fallen unto them by lot, and fo had a right unto it from Gods donation, yet because of their apostasie, became idolatry, and diffidence in God, who had promifed his affishance to driving out the nations before them, they had not yet obtained the po-fession of a great part of it. This was the case of many tribes, but of the Dankes, above the reft ; They had not yet gotten an inheritance large enough for their numerous tribe, Josh. 19.47. and the Amorites also had driven them out of part of that which they had gotten, ch. 1 34. By this it appeareth, that the things here related were not done after the death of Samfon, Seeing it is not probable that so potent a tribe as the Danites, were to seek for their inheritance allotted unto them, and for a place of habitation to dwell in, above three hundred years after they had been in the land of Canaan yet now they were not utterly destithey had been in the mountains, Zorah, and Ethaol, to dwell in, but yet far too feant and firaight for their great multitude j Which maketh them here tile means to inlarge themicives.

For elther of these opinions there are divers strong reasons, and no lesse thong objections sgainft, them. Therefore fome Expositors will have neither of those captivities to be here understood, but a third, namely the patticular captivity of the tribe of Dan, that happened between the two others though normentioned in the Scripture, as many other things are not which yet were done. But I fee no: necessity that may drive us to this while yet were done. Must be no necessity that may drive in today this, feeing this captivity may very probably be meant of the taking away of the Ark, and many of the Itaelites with it, 1 Sam. 4. For whereas it is objected against it, that there is no mention in the Serigures of any more captivities than that of the ten tribes by Stalamancher, and the other of Judah by Nebucadnezzar, it may bee answered, that no more is this captivity of the tribe of Dan mentioned there, but onely imagined by them that make this objection. And again it may be falls magnitud by them that make this objection. And again it may be also that though those were the two great explicitles, that hind-test hose but there might be a lithed feller than they. Again, verf. 31. the continuance of this image and idolatous worthing fer up by the Danites is limited to that time onely in which the house of God was in Shiloh; and that was not till the captivity by Shalmanefer, but onely till the captivity of the Ark by the Philiftims. For foon after this it was brought to Kirjath- jearim, and never after returned to Shiloh. Furthermore, there is no probability that thefe idols and idolatrous fervice and priefthood should continue after that time of reformation by Samuel, when as the people returned unto God, and put away all their idols, 1 Sam, 7.3,4. Or though it should be imagined that Samuels power extended not to this remote place, which was in the mmoft borders of the land , yet what fladow of reason is there , that they should not be taken away by David a man according to Gods out heart, who was so zealous of Gods pure worthip, and abborred all manner of idolatry, especially raigning so long a time, and noticer wanting will nor power to effect such a pious work? For whereas it is animered, the though a positive of the contract of the that though a publick reformation were brought in in the dayes of samuel and David, yet this idol-iervice might fill be retained and iccely acted by many of the Danies even to the dayes of Jeroboam, and fo cen-

as well as the first, it as least any of the Danites remained so long in the land) but how long this chappell of idols and idolatrous priesthood and fervice was publickly upheld and maintained by that tribe. Now this was onely whileft the house of God remained in Shiloh, verfig 1. and that was onely winter the none of Goa remained in Jimonyven, and that was no longer but till the ark was carried away captive by the Philifthins.

Moreover, it is most probable that this book of Judges was written by Samuel, or at least by some other that lived in his or Davids dayes, and not by Ezra, as some have dreamed, having no other ground for their opinion but the dotage of the Apocryphal Eldras: And therefore this captivity cannot be that of Shalmanefer, which happened to long time after the dayes of him that wrote this flory; unleffe we will fay he wrote it by a prophericalhipirit, which is never to be observed in any pen-man of hiflorical scripture without some intimation or notice given of it. And florical teripeare without tome instination or nonce given of it. And belifies, if he had written this by way of prophecy, he would have done it in a prophetical nor an hittorical manner, and would not have fail that Jonathan his fons were, but that they floudd be, the priefly to the time of the captivity by Shalmanefer.

But to erect an altar for a monument of their victory was not fuitable to the prefers occasion, they now coming as mourners to lament the evil fruits that came of it, namely the delitudition of one of their tribes. And brides, this conceit is plainly confuted in the very next words, which exbefues, this content is planny connuted in the very max wolds, which ex-pedic the use for which this altar was erecked, namely, to ofter upon it burnt-offerings and peace-offerings. And therefore the better to clear this point, we are to know, that God appointed but one altar to be ordinarily used for facrifices, as there was also to be but one tabernacle, and narily uten for interinces, as titter was also to be one one topic, as types of our onely Saviour Jefus Chrift, Heb.13.10.11.

There, after his decease, his two sons, Mahlon and Chilion, take unto them wivers of the daughters of Moab. There they both die childless, and Naomi their mother hearing that God had visited his people with plenty, resolveth to return back into her own Countrey; and Ruth, the widow of Mahlon, who could not be perswaded to leave her , as dearly loving both her Person and Religion , accompanieth her unto Beth-lehtm. Three the mother and daughter live in a par condition: For to relieve their Wants, Ruth is fain to glean after the reapers. She not knowing what field to make choice of occasion, occasion is by Gods providence directed to sollow Boaz his servants: Upon which Boas taking notice of her person, but singular vertue, and pione love towards her mother in-law, groweth by degreet into survey acquaintance; till at last, concluding the match, they were married together, and biested with a son called Obed, who was one of the Progenitors of Jusus Christ, Math. 1.5. Thus through Gods wife providence Ruths poverty was a step and passage not onely to her marriage with rich Boaz, but also to her becoming a great Grandmother to the Saviour of the world; even as formerly Joseph by his slavery and imprisonment became Governour of Æ3302 and a preserver of his Father and all his family.

The ARGUMENT.

This Book, and that which followeth, bear the name of SAMUEL, because, as the Hebrews suppose, they were written by one of his disciples, a son of the Prophets, who in honeur of his Masser called them by his name; or rather, because Samuel was the subject, and (is is must likely) the pen-man too, of a good part, and that all the rest (though not written by him, yet) treateth of the reign and alls of those two Kings onely whom he by Gods appointment strongs not written of non-set streaming over rough and nets of stonger was and, ones woom no eyoua, appointment had anothed to rule the people of Israel. These two Books also both by Greek and Latine Interpreters being soyned to the next are all commonly called The books of the Kings, because in them is set down the storie of the Kings of Israel from next are all commonly called 10e Dooks of the Kings, became in them is jet down the store of the Kings of Ifract from the sirs effect of the store of the Kings of Ifract with the store of the store that government among term unto its last period. In this Book we have the History of the two last grades. Ell and Samuel, and of Saul the first King of Ifract, with the state of the Church and Common-wealth interest their government. Concerning Eli we find, that, though himself were a gold man, jet (grace nor going by inheritance) his two sons were wicked, even in their office, and about the body things, in which God chiefly will be honoured; where so the signed in the state with them, as accessory to their in became, being both a father and a fudg be rested in a mild reproof and did not severely punish them according to their demerits. After his death Samuel judged Ifrael, who before he was born, was devoted by his mother to Gods. Speciall fermerits. Easier ms acan same in jugou a state, wow upon the massoura, was accounted from two coast special stra-vice, being the son of her desires, prayers and praises. He being an holy Propher, purgeth the Church from Idolatry re-storeth Religion to its purity, prospereth in all his undertakings, and in some Victories doth in part deliver Gods people out of the hands of their enemies. But his font, not walking in his waits, cause discontent, and occasion the people to rejett his Government, and to defive a King: Wherewith the Lord being difflenfed, because in Samuel his Deputy they rejetted himfelf, their supream Lord and King, and would not stay the time when according to his promise he would let a King or ver them, he gave them (as the prophet speaketh) a King in his wrath, even Saul, who at first, and at the best, was a notable Hypocrite, yet, for the first times of his Reign, used by God for the good of his Church, and an instrument of deliver rance unto it, by obtaining some sumous victories over his enemies. But when for his disbedience his was by God rejear, and David deligned to his place, then he sewed himself a wicked Rebel and bloody Tyrans, obstinately resisting God vewaled will, holding fill the scepter by violence and strong hand, raging against David with all subtilty and sury, and oftenismes artempting his death, not withflanding that he wat in his own conscience convinced of his innocency. And feeing his malice could not reach to God himfelf, be extended it as far as he could, laying bloody hands upon his Priests. For because the high Priest in his simplicity had relieved David, he caused him and all the rest of the Priests, even eighty and five persons, to be cruelly murdered, and not onely them, but also their wives, children, suchlings, and even their oxen, five persons, to becrueity muracrea, and not onely town, out also their wives, cutairen, sucrings, and even their oxen, asset and steep, with more then barbarous and beastly crueity. Moreover, in this Book are related Davids grievous prosecutions, by Saul and bis Courtly fixoshauts and statevers, by sanderers, falls friends, and prosessed ententes, and for thoughting bim hereby, before he would advance him to the Royall dignits, and laying as it were a due foundation where he intended to raise a statelie Building. In all which sufferings David, assistant with Gods Spirit, subted faith Patience, Picty, Assaccia of Ammility, Constants, Loyalty to his Prince and many other Graces, that he is made exemplary berein to all succeeding ages and persons. Lastly, in this story is recorded how God executed his righteous judgement upon Saul and his wicked Courtiers and Stroams, with many other of that finful Nation, by the Tword of the Philistines, and thereby made way for the accomplishing of his promise to David concerning his reign-

Vers. 1. THen Samuel took | To wit, by Gods appointment , who fent him to anoint Saul to be King over his people, as he telleth

a vial of oyl] This ceremonie was used to fignific the collation of those gifts and graces of the Spirit which were requisite to fit and qualifie the person anointed for that place and function unto which God called him: Which accordingly befel Saul, verf. 6.9. And to fignific also that God had fer him spart, and advanced him above others in authority and eminency: To which, oyl hath great resembles. blance, which mixeth not with watrish liquors, but separatesh it self from them, and slotted above them. Now it is questioned among Expolitors, what kind of oyl this was wherewith Kings were anointed, Expolitors, What are a cryst cass was wherewith Aings were anomalow whether common oyl, or the holy oyl of the fanctuary, appointed by God for the confectation of the Prieffs. And it is thought that Saul was anoisted with ordinary oyl, (as was also Jehu a Kings 9. 1, 6.) which Samuel brought with him in a vial from his own house; and that David and Solomon, with other Kings succeeding them, were anointed with the holy oyl of the sanctuary. But this latter is not probable, seeing that oyl was appropriated to Aaron and his fons, and flrictly forbidden unto all others, under that great penalty of being cut off from Gods people, Exod. 30. 23,3 2,33. And befides, Samuel anointed David in great fecrecie, as being in danger of losing his life, if it should have come to Sauls knowledg, as it easily might, if he had fetched oyl from the sanctuary, and acquainted the Priests with it. And when he was anointed King over Judah, 2 Sam. 2.4. the tabernacle was under the power of Ishbosheth, and therefore oyl could not be had from thence to anoint David King, who was his corrival and competitour. Neither have we any intimation in the Scripture that it was other then ordinary oyl. For whereas it is faid Pfal. 89, 10. that God with his boly oyl had anoisted him, this is to be underflood in respect not of the substance and composition of theout, but onely of that sacred use unto which it was imployed. And whereas it is alledged that Zadok anointed Solomon with oyl taken out of the tabernacle 1 Kings 1.39. hence it follows not, that it was that holy oyl appropriated to the Prietls, leeing there was in the tabernacle much other oyl, destinated to their uses. David and Solomon are faid to have been anointed with oyl contained in an horn, but Saul & Jehu with oyl out of a vial, to fignific (as somethink) the ftability and dyrablene's of the Reign of those Kings, and the fhort duration of the other, a visil being brittle, as made of glass or earth, but an horn, strong and tough, and able to endure many fall or knock.

When thou art departed from me] Here and in the verses fol-I wing Samuel by a propheticall Spirit giveth unto Saul certains figns whice flould occurr in his return, that when he saw them accordingly happen, he should thereby have his faith confirmed in this assurance, that other things foretold concerning his Kingdome thould likewife certainly

Hither thele three men went to offer facrifice. See on ch.7.16. carrying a bottle of wine? Which they used in their facrifices of

thanksgiving, and in drink offerings, Lev. 23, 13.
V. 4. and give thee two loaves of bread, which thou shalt receive But how could they give, or Saul lawfully receive; that which they had deflore other bread for their use, out of which they gave these two loaves. But speaking of three loaves which they carried with them, and then adding, they should give Saul two, it seemeth that he meant two of those three. Others think, though these loaves were devoted to God, yet they might lawfully give them to Saul, being hungry, and without provision, ch.9.7. because it was a work of mercy to relieve his necessity; which God preferreth before facrifice, Hol. 6.6. But it is not probable that Samuel would fend him away to flenderly provided for his journey as that he should already want bread, when as he had trayeled but a few miles from him. Therefore I rather think that God did fecretly move these men to offer Saul this Present, by way of bomage due to their King, though themselves at present had no such knowledge of him. The which so much the more tended to the strengthening of Sauls faith, the main end at which God and Samuel simed, when as they upon no acquain-tance, or other cauge, offered him this Prefent, but onely as they were meved in a ftrange manner by Gods Spirit: And it was in them not onely awful, but also pious duty, to hearken and yield unto it.

V. 5. After that, thou shall some to the hill of God] By which some understand the high hill in Kirjath-jearim where the Ark was placed in the house of Abinadab, ch.7.1. But it is not likely that a strong gatrifon of the Philiftims fhould be kept in that place where the Ark was feated, and whither the people were daily to refort for religious fervices. Therefore by the hill of Ged here we are to understand the high place of Gibeah , which is called Gibeah of Benjamin , neer unto which was the Philiftims garrifon, ch. 13.2. Where also Sauls Father, and his Uncle who afterwards met him) with other of his kindred and friends , had their habitation. Josephus calleth it the town of Gabbatha. And it was called the hill of God, either because the Lord there had done in former times fome memorable act ; or because there was there some place confecrated to religious uses, where was a Colledg of Prophets devoted to Gods fervice. And thefe might dwell in fafety neer a garrifon of the Philiftims, feeing in those dayes religious men were priviledged to dwell neer

their enemies without hure and danger,
thou shalt meet a company of prophets coming down from the high plate?
Namely, of Gibeah, the place of Sauls habitation, where there was a School of Prophets. For there were in the land of Ifrael divers Schools or Colledges of the Prophets: In which were some Elders or chief, who were Governours and as it were Fathers over the reit, because by instruction and example they did as it were spiritually beget them, and educate and train them up in holy and religious exercifes, as praying, reading, meditating, studying and interpreting the Scriptures and Law of God, singing of Plalms and spiritual longs (using therewith instruments of Mulek) and holy conferences one with another; that they being thus trained up in doctrine and holiness of life, might be fitted thereby afterwards to infrared the people. The most of these (as it may probably be though) were of the Levites and Priefts progeny, thus educated for the fervice of the fanctuary, and to teach the people; although we cannot say but there were divers among them who were not of this order. And it pleafed God to choose and call some of these to be extraordinary Prophets, endued with that speciall gift of prophecie, whereby they did foresee and forestell things to come. But this gift was not common to them all, nor appropriated to them alone, feeing it came not by instruction and educaion, but by Gods free difpensation, the wind blowing where it lifteth, tion, but by Gods free disprintation; the wind blowing where is intens, johns, 8. saw (see in the example of the Propher Amos, Amos's, 14-The fecond fort of those who lived in thicf. Because it was the greatest tribe in number, and in the extent of their inheritance. II. Because they used to have the precedency in all expeditions, which was first given them by God, Judg. t. z. and also in encampings, Num. z. 3. III. Because the Mississ was to descend out of this tribe, that should welld the Royal Scripter, according to Jacobs prophecy, Gen; 49, and also the race of Kings should come by lineal descent, untill his coming; however the first King, which was not to continue, chosen by God out of Benjamin, the least of the tribes, because God gave him in his anger, and intended mercatior the tripes, pecaute God gave mini mins anger, and intended not to chablish the Kingdom in him and his posterity. Where by the way we may observe the humble submission of the tribe of Judah to the government of Saul, notwithflanding they had a former promife of the strigly throne and seepter, onely upon this ground, because they saw it thus determined by Gods good will and pleasure.

For though it was unlawful for any , save a priest, to offer a burnt-factifice upon that publick altar in the tabernade appointed for it, yet (as they fay) a private man might offer it upon a private altar; for so Samuel, though but a Levite, offered a whole-burntfacrifice, ch. 7. 10. And therefore Saul was not reproved by Samuel for offering it, wherein he offered not; but because he had not staid the full oltering its wherein the clierce flot jour tectaue fee had not tribe at termine, according to Gods appointment, ch. 10, 8. Others (and, s. s.) conceive, more probably) think that Saul is faid to have offered it, because the prieft did offer it by his appointment. And thus Elkanah is faid to have factificed in Shiloh, ch. 1, 3, and Solomon at Gibeon, I Kings 3, 4, and that the offered a thousand burnt-offerings upon that alter there. And also the strength of struct over their enemies.

V. 21. Behold, to obey is better then facrifice] Of this, one giveth two good reasons. I. Because obedience preserveth from sinning, and sa-crifices were ordained to cleanse from sin, when committed; and it is much better to prevent a difesse then to be cured of it. I I. Because God alwaies accepteth of obedience, and is well pleafed with it ; but reje-Beth facrifices, as but a dead carkafe, when obedience, which is their life and foul , is separated from them; as a bare shadow; and formal and fruitless ceremony, divided from it. So Jer. 7.22. 18.1.13. & 66. 2. Pial. 50.8,13. Prov. 15.8. Ecclef. 5.1. Hof. 6.6. Math. 12.7. I 3. Pan. 50.8,13. Prov. 1.8. Eccel. 5.1. He doth not chiefly require and delight in them; but in a lefs and lower degree; and that in the Seriquer plante is fish not to be done which is not done chiefly and principally. So Paul lish he mat not fent to haptize, the state of the Castell. but to preach the Goffel, 1 Cor. 1. 17. i.e. not chiefly to baptize, but to preach: For all the Apostles were sent to do both, Matth. 28.19. and himfelf baptized, as he fpeaketh in the fame place.

'V. 23. For rebellion is as the fin of mitchereft, and stubbornness is sinquity and idelatry Rebellion and stubbornness is when men wilfully transgresse Gods known commandments, and commit a sin the rather because God hath sorbidden it. Neither is the quantity of the sin so much to be respected as the quality, nor the materiality as the formality of it, to intitle it to the name of rebellion; seeing the least fin is rebellion which is committed with a ftubborn heart , againft Gods revealed and expresse commands. And this was Sauls cause here. For had not God plainly and strictly required him to destroy all the Amalekites, with all their cattel and fubftance, it had been at his own choice to do with them what he pleased; but having received so express a charge, his wilful and Rubborn disobedience was plain rebellion. And this Samuel saith was as wicheraft or divination, when as men leave God and seek to divels, and as iniquity, whereby generally is meant all fin, and a course of wickedness, Gen. 15.16. Rom. 4.7. and idolatry, when men courie or wickeducits, Gen. 1,510. Rom., 7, and attainty, when men forfake God and freve blots. For as Witches and Diviners leave Gods Word, and go to the Devil for counfel and direction: 6 Rebels refilt Gods known will, and obey the Devil in their works: and as biolaters ferve and facrifice unce their klots, and negled Gods true worfulp; for thubborn and oblitance finers; a depling Gods commands, ferve their own folks, and farrifices to their own nets. repentant heart, or from love of God , or hatred of fin , but from felflove, fear of punishment, and such base and by-ends. Saul here useth the very same words that David did, 2 Sam 12.13. yet there was great difference between their confessions : For David confessed readily, but Saul is very hardly drawn to it , and a long time fhuffles it off with frivolous excuses. The one, like a sound penitent, taketh the whole guilt and blame upon himself; the other, when so convinced that he could and opame upon numer; the other; which to convince a that he could no longer thirt it wholly off, like an hypocrite; will not (even in his confession) bear the burden alone, but layeth it chiefly upon the people, who had compelled him to do what he would not have done, if he had

And the Lord said, Arise, anoint him, for this is he] It was not Gods purpose that David should soon after Sauls rejection come to the Crown, but that Saul fhould ftill reign divers years, (feven at leaft, as Crown, but that you indust untergla avers years, (Acrea was, as fome think) even to the day of his death; and yet he was pleafed that David fhould prefently be anointed. Betaule David was to be throughly humbled by many trials and tentations, afflictions and dangers, before he was to be exaited to the Crown and Seepeer, there was great need that this feal of anointing should be added to God promise, for the strengthening his faith in all his doubts and difficulties. This was a fo done for the comfort of Samuel, and other of the faithful which came to the knowledg of it, and to affure them that, though God had rejected Saul, yet he would fill take care of his people; a sud when he was gone, would give them a King that flould fight their battels, and fave them out of the

Then Samuel 100k the horn of oyl, and anointed him in the midfi of his brethren The relation of this action is passed over with as great brevity as the other, v.6. with omiffion of divers circumftances; which is the cause of some doubts and difficulties. For it is not said, when, is the cause or lone doubts and officialities. For it is not not young or where, he anointed him. Nor is it cleer by the text, whether he did it fecretly and privately, none knowing of it but onely Jese, David and himself, or whether it was done before many witnesses. Therefore there numetr, or whether it was only entered that with the was anointed openly before all the guelts, to the end there might be many witnesses of it: because Samuel dyed before a way was made for David, to be elected & crowned, by Sauls death. But this is not probable, seeing Samuel tiled much fecrecie in the action , that it might not come Sauls knowledg , left he should kill him; as it would soon have done , if it had been done in the presence of many. And we see also, that afterwards David was much loved and esteemed by Saul, vers. 21: whereas had he known that he was anointed King in his room, he would have mortally hated him 3 feeing he did it afterwards upon a bare jealousie and sufpicion of it, conceived upon the hearing the women fing his prailes, ch. 18.8. Finally is cannot be imagined that, when Samuel anointed him , he made a dumb they, pouring the oyl out of the horn upon him, and faying nothing; but that with this ceremony he uted forme words to explain his meaning, namely, that he had anothred him to be King over Ifreel. And this is implyed in the speech of the tribes that came unto Hebron to grown David their King, 2 Sam, 5 2. And the Lord faid to thee, (namely, by Samuel his prophet, when he anointed thee) Thou that feed my people Ifreel, and thou shall be a Captain over Ifrael. This no doubt Samuel ipake David and his Father, but not before his brethren , upon the former reasons. Now the enely considerable objection sgainst what I have faid , is this , I hat the Author of this book faith, that he anointed him in the midft of his brethren. Unto which if we add the weight of his greaves because his mind and heart were so wholly taken up with the present wars that he had shaken off his melancholick sears and distractions, and wholly intended those weighty offairs, that no less concerned him than the loss of his Kingdome, liberty, yea and life it felfe; Or finally, Saul returned him to his aged father, to be a comfort unto him in the absence of his three other fons, who were imployed in the wers, having now no use of him or his musick, but rather of a Sword and Spear. But these reasons do not throughly satisfie, seeing the text given not the least hine of Sauls alteration and disastection towards David. And though his present imployment in the war abated for the time his fears, and taied his fits, yet this would not not have caused him, being a King, to fend away a servant of whom he might have need again when the war was end-ed. And if he found himself recovered by Davids mulick, this would the more have indeared his fervice, and made him the more loath to pare with him, for fear of a relapfe. And suppose he had no need of David as his Mufician, yet he had now more special occasion to use his fervice and attendance, as being his Armour-bearer. Neither is it the manner of Princes to respect more the comfort of a private parent then their own fervice in the publick off irs of the State and Comman-Wealth, Therefore, faving other mens better judgments, I conceive that this going and returning is meant of Davids going to and fro from his fathers house to the Camp, which was the prefent occasion why it was here spoken of.

And hereby he shewed great humility and patience in the exercise of his faith and hope. One would have thought that both his father and himself being acquainted with Gods purpose of raising him to be King, should have defired that he, above the rest of his brethren, should have been imployed in the wars, that his valour and prudence being approved, he might become famous and in high efterm with the King and people. And secondly, because hereby she discovered her faithless fear and diffidence in Gods power and providence, as being unfufficient to preserve her from her fathers anger, unless by lying the provided for her own fafety. And here by the way observe the nature of this fin of ner own satety. And nere by the way observe the nature of this into the Lying. It tecemeth Soul had cauled the Tabernacle, with the Altar and table of thew-bread, to be removed from Shiloh unto this place (but the Ack remained at Kirjath jearim untill Davids time) because it was in his own tribe, as before Joshua an Ephraimite had placed it in Shiloh, a City of Ephraim, for his own use and conveniency, that he might upon all occasions with more speed and ease resort unto it sand David afterwards caused the Ark to be remowed from Kirjath-jearim to Jerusalem, that he might have Gods O.acles and Ordinances neer him. And this was the cause why at this time there were so many Priests at Nob, that they might be ready to attend the service of the Sanctuary. In all this his apology he faith no-thing as all of that which (as it (cenuch) would have been most effect-ual for his excuse, namely that he had been deceived by David, and drawnon to do all he did by those untruths which he had told him. And this he forbore to (peak, either to avoid Davids dipleasure, who, if either he were again reconciled to Saul, or himself should come to the King, might revenge upon him the discovery of his secrets so much to his prejudice; or rather, as I think, the good man was loath, by excufing himself of a seeming fault, to accuse David of one that was foul and real, and thereby to incense Saul the more, against him, whom he saw

As this cruel doom was transcenor sammente to say to their charge. As this crue; adom was transcendently horrlibe in it felf and the matter of it, fo was sau most unjust and illegal in his manner of proceeding. For whereas by the law none should die under two or three witnesses, he condemneth to many upon the bare and malicious testimony of a falle and flattering Sycophant. Neither doth he take any time of deliberation to examine the cause, and the reasons, and further tellimonies which might be produced ; but in rage and fury proceedeth from a rath fentence to a prefent execution, rage and thry processed from a same tendence to a present execution; without any delay. And thus this damnable hypocrite; who out of feeming pity and mercy would space Agag, that was appointed by God to dye, is now so slesh; in blood and cruelry that he sticketh not to murder and maffacre a multitude of innocents.

Now to this place he came, hoping that Saul would not pur-fue him thither, feeing it was in the utmost borders of the land, fix and thirty miles distant from Maon, especially being such a mountainous, rocky and craggy place that an army could not pass through it without much difficulty. But herein he failed of his hopes, as appeareth in the next chapter : for Saul was fo transported and as it were carried upon the wings of malice and fury that he purfued him hither also, there being no difficulty or danger that could hinder his passage.

It is observed by writers and travellers that some caves in that country, and others also, as in Germany, are of such vast widenesse that they are sufficient to contain great numbers of men. Such an one was this, which it is thought the inhibitants in those parts made use of to shelter their sheep from the scorching hear of the day, and to fold them in by night, to preferve them from wild beafts, which abounded in those defert places. Therefore into this Saul might enter and not discover them that lay hid in it , both in respect of the largencile of it, and because though they might see him coming into it, there being some light in the first entrance, yet he could not discover them in the inmost parts, having purposely hid themselves in the dark, by the fides of the cave, that Saul and his men might not find

And this David did to demonstrate his own innocency, and to make the calumnies of his enemies, who faid he fought to take away Sauls life, appear falls and frivolous, feeing he fpared him when he was in his power, and might as easily have cut his throat as the skirt of his robe.

But his meaning is, that God had of-fered him an opportunity of killing him, which in all likelihood he might have laid hold on, he being his mortal enemy, had not God restrained him, by making him know that he had done it to this end , not that he should kill him, which he could not lawfully do, (for though he were anoynted King, yet Saul was still in possession, and his Lord and Sovereign: and though his sins against God had deserved death, yet David had no authority to inflict it) but rather that hereby he might have a fit occasion to exercise and approve his patience, humanity and charian occasion to exercise and approve its patents; numarity and char-ty in sparing kim; and to manifest his innocency, and how guilt-lesse he was of that soul aspersion with which his enemies had black-ed and branded him, that he did lye in wait for Sauls life.

To which it is wel answered, that David sware in truth, having a tall intention to observe his oath, for his part, as much as in him lay, as appeareth in his putting them to death that murdered Ishbolheth, though he had taken up arms against him, 2 Sam. 4, and by his preserving and cherishing Mephibosheth, 2 Sam. 9. But in the other he was not left to his own choice, but necessitated by a special command from God to deliver them into the hands of the Gibeonites for their fatisfaction , that Godswrath being appealed, the heavy judgement of famine might be removed from the land, a Sam. 21. 6, 9. And therefore in this he brake not his oath, feeing he did it not voluntarily, but in obedience to Gods command, and by his special Commission and direction, which is sufficient to dispense with all oaths.

Nabal here thinks it not sufficient to deny the fuir, unless he also vent his rancor and malice by rayling and reproachful speeches. And first he slightest Davids person, and in way of contempt asketh who he is, as though he were a man altogether obscure & notworthyto be taken notice of whereas indeed he was most faobfoure & notworthyto be taken notice of, whereas indeed he was most fra-mous for his vertuce & good parts, his videncies over Goilab & the reft of Gods enemies, his marriage with the Kings daughter, and she high ho-nour & eithern he had been formerly in with all the Kings ferensing, yes, the whole land, Court and country. Therefore it was not the ignorance of National hinds, but the miles of his hearts, when he faw David in an af-Biblict and poer condition, and now out of favour with the King which made him by way of fcorn to ask who he was. To which purpose also he addeth, and who is the son of Jesse as not vouchissing to call him by his own name, and much less the Kings son in law, but twitting and upbraiding him with his poor parentage.

There be many servants now adayes that break away every man from his master] i.e. That breaking away do run from their masters. A metaphor borrowed from refty borses and refractory cattel, which break their bridles and bands, and run from their owners. And here unto his contempt Nabal addeth calumnie and reproach, as though David and his followers were no better then rogues and runnagates, that had left their callings to live in this idle course of life, seeing not only David himfelf had thus run from Saul his Lord and Mafter, but also had a-

nimated many of his followers to follow his example, ch. 22.2.

David is to incented and emerged with this inhumane, churlih and
contunctious andwer of Nibal to this fait, that being out of all pattence he breatheth nothing but therp revenge ; and he that at other times could with humble meekneffe bear Sauls perfecutions, Shimei's railings, and Absaloms rebellton, here hath no power to contain himself from desperate fury: Yes, he that before represent the rage and violence of others, ch. 24. 6. is now the bellows to blow the coals, and inflame of thers; for he provoketh and caufeth his followers to joyn with him. Now this was not onely from hence, because gross ingratitude and reproachful speeches are more intolerable to a generous spirit then blows and wounds inflicted on the body, but especially because God is pleased sometimes to withdraw his grace from his dearest children, and leave from Gos upon at that thou next.

V. 7. And now 24 bew best at his thou half [leasters] i. e. And thus David being here left discovereth much inward corruption, and deeply plungeth bimsef into gross and gieveous sins. Whether that proportion was ratably observed in this divition, or afterwards, we cannot infallibly determine. But of this we may be fure, that thefe two hundred had not an equal there with the four hundred that went to war : for then they should have had twice as much as they in the personal division, feeing they

And this he doth in an especial manner to them, because Saul being of their Tribe, was chiefly in their favour; and therefore, if they gave way to Davids title, and submitted to his government, little doubt was to be made of the other tribes.

V. 4. And Jonathan Sauls son had a son that was lame] The drift of this narration concerning Mephibosheth is to shew what induced these two Captains to murder Ishbosheth, that they might thereby ingratiate themselves with David; to wit , because there was none remaining of Sauls house likely to vindicate his death. For Mephibosheth only was left, and he but a child, and lame of his feet; and therefore as he was unlikely to revenge his uncles death, being young and impotent, especially when as he could not look otherwise upon him then as an usurper, who had put him by the Crown to which he had title by lineal succession ; so he was as far unable to hinder David from quiet possession of the Kingdom, being a lame childe, whom no man much respected. and came about the heat of the day to the house of Ishbosheth, who lay on his bed as noon] Though there were a common cultom in those hot countries to take their ease in the Bear of the day, which made them unfie for action and imployment, yet it feemeth to be focken here in a fpecial manner of Ishbosheth, because he was a dull unactive man, who having put off all business to Abner, gave himself over to floth and ease: A thing unsuitable for a King at any time, especially for him in his present condition, full of desperate danger, Abner his chief strength being taken away. And therefore it was just that he should dye in his shoth who had lived flortifully all his dayes.

By all these circumfisnces David aggravateth their horrible erlme, as being in many respects far more hainous then that of the Amalekite, which he had punished with death. He was an Amalekite, and in respect of nation and birth an enemy to Gods people, from whom no better was to be expected, efpecially by Saul, who not long before had flain almost all their nation ; but their wer likelites, and of the same religion with Ishoshieth, and thereby obliged to perform all good duties to their brother; yes, they were of the same tribe with Ishoshieth, and his servants, and therefore bound to be loyal to their mafter. He did it (as he pretended) at Sauls earnest request, out of mees pity, to free him from torment ; But these murdered Ishbosheth in a violent manner against his will, when he was taking his repole, and was at case. And though as the Jewith writers observe, it was not lawful to lellen the punishment which the Law had appointed, as to adjudge one to imprisonment, whipping, loss of goods, in fread of death, yet they might added unto it according to the nature of the fin ; breaule God in mercy had appointed the least degrees of punishment which in justice could be required. and the lame and the blind, that are hated of Davids foul] If we unterftand this literally, it is not fimply meant that David hated the lame and blind because of their imperfections, who ought rather to be pitted & elieved, but respectively, as they were by the Jebusites in way of scora and derifion prefented unto him to difgrace and diffunour him and his whole army. Bur if we take it in a symbolical sense, to be meant of the idols and images, which have eyes, and fee not, and feet, and walk not, then it is to be underftood absolutely, that they were hated of Da-Wherefore they said, The blind and the lame shall not come into the house.

Or, Because they had faid, Even the blind and the lame, He Stall not come Of the state of th more, but abler men employed to defend it. By boufe, some understand, and most probably, the royal house or palace of David, from entring whereof the blind and lame were interdicted, not for pride and ftate, as the Persian Kings would have none enter their Courts in fackcloth, because they would not offend their eyes with beholding mournful objects, Bill. 4. 2. but that it might be a perpetual memorial of this victo y,to have the blind and lame secluded from entring the Kings house, because they were used by the Jebusites as instruments to put such a foul scorn upon him. Neither can it hinder us from taking the words in this lenfe, that Mephibostieth, though lame, was admitted to sit at the Kings table, feeling no rule is fo general, as that it may not have fome one exception. And the presence of Mephibosheth bad another use, namely, to put Dawid in mind of his dearly loving Jonathan, and to be unto him a cause of joy and content, when by flewing kindnesse to the son, he expressed his love and thankfulnesse to his deceased father. But they who would have the blind and lame idols to be here understood, think that hereby is meant that idols and images should be wholly excluded both out of the Kings house, and Gods. But I see no reason why that should need a new interdiction in remembrance of this victory, feeing alwayes before they were forbidden to be received into either of these places, on any other. Now as this proverb was taken up among the people for a memorial of this great victory, for which they had alwaies caufe to praife God, fo it was applied according to special occasions; as when they would incimate that a thing seeming impossible might come to passe, as was the taking of this impregnable tower : Or, to reprove fuch as were proud and prefumpruous of their own strength, either in respect of place and fortifications, or of the arm of flesh, by telling them they might be deceived as well as the Jebulites: Or, to give men warning that they commit not the like error with them, prefuming too much of their own ftrength, left they fail in their hopes as they did , feeing oftentimes what begins in confidence ends in fliame ; and that they take heed left that befall themselves which they intend to others ; as the Jebusites thinking to make fure that David should never enter their Fort, were themselves expelled and never re-entred. Others read thefe words, as we have them in our margin, because stey had faid, &c. i. e. David promifeth this reward to him that fhould take away the blind and lame, because they had put this scorn upon him.

V. 9. And David built round about, from Millo and inward] Millo was a deep and broad valley or ditch, dividing Sion from the lower city; from whence David raifed his wall of defence about Sion. See I King. 9. 14. Others think it was the town-house in the City of David, where his own strength, but seeks to God for direction, and without te would do the people had their folemn affemblies, fo called from filling, replenishing. Others, and very probably, think it was some tower and place of muni sion belonging to the city, because it is said that Hezekiah repaired Millo in the City of David, and made darts and shields in abundance, 2 Chr. 32. 5. A place of the same name and for the like use we read of Judg. 9. 6, 20, 49. From this tower or fortresse David is said to have built the City round about, even from Millo and inward; and loab repaired the rest of the city that was without. Compare this place with a Chron.

Chap.vii.

V. 17. According to all these words, and according to all this vision, so did Nathan speak to David] i.e. He made a true and faithful relation of all God commanded him to speak, though it were to his own dispaor an Ord Commission and the deads to the had before privatly given. And herein he carried himself pioully and prudently. For as it is the first point of wildom so to speak as to have no cause to repent afterwards of what we have spoken, so it is the second point, when we have spoken a-mis to retract and revoke it; As Austine excellently saith in excuse of milts overraft and revoke it.) At Audhire excellently faith in excuse of his own practile. Neither dond David upbrach Nutsan, as shough he had not earlied himself as the Lords Prophet herein, faying), and unsiying what he had formerly faid. Thus Islainh, having denounced the fuence of death upon Herektsha, afterwards, being appointed by God, revoketh is, and promiten that his life floud be prolonged fitten years. But Jonash, whose of Pride and fell-freiting registed to deliver the meliage which God had put in his mouth, is judit exact and condemned dorit. But lesing David himself was a Propher, why did not God immediately inform blum what he was to do in this great bufferfile, but when the property of the pro ufeth the Miniftery of Nathan to teach and inftruct him? Lanfwer Though there were no reason hereof to be given but his own good pleafure, that alone were fufficient : But befides, we muft confider that God looketh upon us as members of the fame mystical body, who are linked together in love and fervice, and need mutual help . And as every member hath its imployment, so it tendeth to the increasing of love and af-fection, and to the common good of the whole. So it is in the body natural; All its members, as the eye, ear, hand, foot, perform mutual fervice to one another; and hereby the whole body is preferved, 1 Cor. 14.16, 21.

Veti. 1. A Nd after this it came to pass that David snote the Philishing, and subdact them! Compare this whole Chapter with 1 Chron. 18. In this and the following Chapters a reason is rendred why God would not suffer David to build his Temple, namely, because why God would not june: Lavia to build ms a timple, namely, decaute he had no leifure, being by the Lords will imployed in Wars. And withal in the following story is shewen how God accomplished his gracious promise made in the former Chapter concerning the establishment of Davids Kingdom in all proferrity, and the confluence of all bleflings, to the joy of himself and all his people.

And David took Metheg-Ammibout of the bands of the Philifilms?

V. 2. And be smote Moab] At the coming of the Israelites out of the wilderness they were forbidden by God to invade the Moabites land, or do them any hurt, because he had given it to the children of Lot for a poffession, Deut. 2.9. But now David maketh war against them; for what caule, and upon what occasion, it doth not clearly appear. The Hebrews think it was because David having, in the time of Sauls perfecution, left his father and mother under their Kings protection, they treacherously murdered them after he was departed from them. But for this we have no good ground in Scripture, why we should believe it. It is rather thought that God at first restrained his people from distressing them, because they had then done them no wrong. But afterwards they proved malicious enemies, and thereupon were interdicted from coming proved musicous enemies, and energopon were inscribed from con-into the congregation unto the tenth generalism, Deut. 23, 3. This is the more likely, because it is faid 1 Chr. 18: 3. that the end of this expedition was to eftablifb his dominions; which may well be understood of Hadadezer, that had reigned there; but not so well of David, the bounds of whose kingdom did not as yet extend so
